

Access to the NZCOM Midwifery Membership database

Researcher/postgraduate student identifies the need for access to the NZCOM *midwifery membership* database for research purposes

Email request for access to JDRC at practice@nzcom.org.nz and attach to email:
An outline of the research proposed including the purpose of the research, the ethical considerations and the expected outcomes.
A copy of ethics application and permission if/when provided by the ethics committee.
Any pilot questionnaires and a copy of the final questionnaire (when available) that will be sent to membership
A description/explanation of how the research will ensure that anonymity and confidentiality of members will be retained (this may be within the research proposal)
This paperwork will be forwarded to governance group for consideration

Governance group will meet to consider the application

Results may be:

Allow access

Require more information

Does not meet JDMRC requirements – access denied

If access supported then researcher/postgraduate student agrees to:

All requirements as set out in the process for access to database document

All costs of access to the database are to be met by researchers

To submit a paper to the NZCOM Journal for publication
