Access to the NZCOM Midwifery Outcomes database

Researcher/postgraduate student identifies the need for access to the NZCOM *MMPO midwifery outcomes* database for research purposes

Email request for access to JDRC at practice@nzcom.org.nz and attach to email:

An outline of the research proposed including the purpose of the research, the ethical considerations and the expected outcomes.

A copy of ethics application and permission if/when provided by the ethics committee.

Researchers will provide precise details of the data fields they require access to and the years the wish to include.

Governance group will meet to consider the application

Results may be:

Allow access	Require more information	Does not meet JDMRC requirements – access denied

If access supported then researcher/postgraduate student agrees to:

All requirements as set out in the process for access to database document	All costs of access to the database are to be met by researchers	To submit a paper to the NZCOM Journal for publication
