

## Oral Presentation Template

**Title** – In bold

Author(s) first and last names (please also identify the presenting author/s in bold), with superscript number referring to the affiliation of the author(s) in the next lines

Affiliation (Organisation, City and Country (if outside of New Zealand))

*Insert abstract text in the following format:*

For research abstracts:

- **Background:** A brief overview of why the subject is important for midwives
- **Objectives:** The purpose of the research including the research questions
- **Methods:** Explain how you did your research and how you analysed the data
- **Results:** What were your main findings?
- **Conclusion:** Link your objectives and findings
- **Key message:** Messages—how are the findings relevant for midwives?

For sharing midwifery knowledge/experience abstracts:

- **Introduction/Background:** What is known about topic
- **Purpose:** Why this topic is important
- **Project:** What you have done and how
- **Discussion:** What difference has this made for women in your care
- **Key message:** Why this is relevant to midwifery
