The Publisher regrets that an error appeared in Table 5 of this article. The numbers and percentages for acute postpartum admission to HDU/ICU/theatre “Yes” occurrence were incorrectly stated as PMU n = 85 (7.8%), TMH n = 371 (13.0%).

They have been corrected to PMU n = 9 (0.8%), TMH n = 126 (4.1%), as per the following table.

Table 5. Effect of place of birth on maternal and neonatal outcomes.
Descriptive statistics are listed as n (%) and OR (unadjusted and adjusted) are provided.

Outcome	Occurrence	Place of birth n (%)		Unadjusted ^{a,b} OR (95% CI)	Adjusted ^b OR (95% CI)
		PMU	TMH		
Maternal					
Emergency caesarean section	No ^c	1,092 (98.2)	2,856 (92.5)	0.224 (0.141-0.356)	0.250 (0.157-0.339)
	Yes	20 (1.8)	233 (7.5)		
Postpartum haemorrhage	No	1,007 (92.2%)	2,481 (87.0%)	0.489 (0.389-0.615)	0.536 (0.424-0.676)
	Yes	85 (7.8%)	371 (13.0%)		
Acute postpartum admission to HDU/ICU/theatre	No	1,105 (99.2%)	2,967 (95.9%)	0.192 (0.097-0.378)	0.201 (0.102-0.398)
	Yes	9 (0.8%)	126 (4.1%)		
Neonatal					
Low Apgar <7 at 5 min	No	1,106 (99.5%)	3,032 (98.5%)	0.298 (0.118-0.752)	0.354 (0.135-0.926)
	Yes	5 (0.5%)	46 (1.5%)		
Neonatal admission to NICU	No	1,087 (97.6%)	2,940 (95.1%)	0.477 (0.315-0.723)	0.571 (0.362-0.902)
	Yes	27 (2.4%)	150 (4.9%)		

^a All results were statistically significant at p<0.001

^b Adjusted for parity, smoking status, ethnicity, BMI, socio-economic decile, and age, as per Table 4

^c This outcome describes vaginal birth inclusive of instrumental birth
